Underdog revived and new team members!

Seems like we're going to be able to finish this, folks, at least my fingers are crossed!

Chapter 13 is already on the works, by the way.

Our great star this time is our newest addition to the translator team ***AlexK***, on whose debut as a scanlator we give our hearty congratulations! Hooray for the rookie!

But only a translator does not a scanlation make. ***Underdog*** 12 had the invaluable contributions of two other rookies and a couple of veterans.

Extend your warm thanks to ***Hanakumu***, whom some may already know from her work on Funouhan with us!

As for our mascot ***Motato***, this is also her debut with us, but she is already a scanlator with some experience to boast, namely as the boss of her very own scanlation group! Congrats, Motato!

The veterans, Mii, Pervy and myself, look forward to working with them till the series is over. Four more chapters to go, including an epilogue! Stay tuned!

Death Toll Scanlations

Redrawer needed for *Deathtopia*!

One of our aces, Green Demon, decided he just wanted to work on his main series and not on this one any longer. Death Toll is not a group that tells its members what to do, so I promptly relieved him of this assignment, effective from chapter 49 or 50. (The ones up to there, as you know from my previous announcement on the matter, are already scanlated and ready for release and will come out in intervals of two weeks.)

This means we need a redrawer for this. We initially picked ***Deathtopia*** because it is much easier to redraw than our other series, but as it progressed, the author got a little more ambitious, so we need to test applicants. Our redrawing test is notorious for its difficulty, but we do have a simpler version that is good enough for ***Deathtopia*** if you pass:

https://goo.gl/pv6ZKI

This is our series-tailored test. The link has a few folders, but you only need to do the contents of the one labelled "General". And don't ignore the Read Me.txt file!

You can also bypass the test if you have previous experience, but we need to see a sample of PSDs (including the layer with the raws) featuring your skills. We reserve the right to ask for more samples or insist that you take a test if we are not impressed.

We have until early June (2016) to find someone. The one who joins will have to deal with a four-chapter backlog but after you catch up, we only need you to be able to redraw a chapter every two weeks.

Thank you for you attention.
